Senator, I need your help. I have issue with the cost of power connection with APS. I own land and I need to connect to electric service, so that I can complete my retirement home. APS changed the cost of this in 2007 from no fees for the first 1000 feet, to the current estimate of \$38,000. At this point my land is worthless to me as I can not afford costs like this. Im sure that you are aware of this issue. I only wished to state my aggravation, and hope that you follow this matter as it effects many, not to mention necessary growth for our small town and other rural areas.

Thank you so much,

Sincerely,

Cheryl Lambert
